

Guaranteed Savings on Credit Card Processing Designed for Nonprofit Organizations

The North Dakota Association of Nonprofit Organizations (NDANO) has teamed with Bluewater Nonprofit Solutions to bring members a service that will significantly lower the fees paid to process credit card transactions. Bluewater's credit card processing service was designed for the special needs of nonprofit organizations, and makes it easy for nonprofits to process credit card donations and payments through a website, at special events, over the phone, through the mail, and even through third party sites such as Salesforce.com.

Bluewater offers guaranteed savings on fees for organizations that already accept credit cards. Organizations that switch their credit card processing to Bluewater experience savings that range from 11-54%, with an average savings of about 24%. If you're looking to reduce your processing fees and make it easier for donors to support your organization, Bluewater's credit card processing service is right for you!
